Docket No.: 03179-PA  
Inventors: WILSON ET AL

Remarks

It is requested that the amendment submitted March 16, 2005 be entered. The new set of claims herein presented is submitted on the assumption that the claims submitted on March 16, 2005 will be entered; the claims herein submitted are presented and labeled on that assumption.

It is also requested that the Examiner reconsider applicants' response to the outstanding rejection of the claims over *Wilson, Woodard* and *Kohl* under 35 USC § 103. It is believed that applicants made cogent arguments in their amendment of March 16, 2005. For example, the Examiner is requested to consider the specific numeric limitations of the claims upon which the claims depend for patentability. It is believed that if the Examiner were to reconsider the remarks of record he would find allowable subject matter in this application.

It appears that all matters have been satisfactorily addressed and the Examiner is requested to find allowable subject matter in this application.

If the Examiner has any suggestions as per MPEP 707.07 (d) and (j), for putting the case in condition for final allowance, he is respectfully urged to contact the undersigned attorney-of-record at the telephone number below, so that an expeditious resolution may be effected in this application.
